SOFT SKILLS TRAINING
Financial Skills

Accreditation and Training Services
is a registered training provider with the ETDP SETA.

Business History and Field of Operation

Following the South African Qualifications Authority's (SAQA) decision in that all training programmes falling within the generic educational training practices domain, will in future become an Education Training and Development Practices Sector Education and Training Authority (ETDP SETA) responsibility. Up to that stage the various SETA`s trained, assessed and registered their own assessors, facilitators, moderators etc. In view of the fact that the SAQA decision would stimulate the ETD training market, ATS was launched and accredited at the ETDP SETA (nr. ETDP9952).

Training is offered at ATS' main training facility in Groenkloof, Pretoria. Various other training venues can be arranged throughout South Africa to meet the particular requirements of our clients.

An indication of the scope of training offered and number of candidates already trained is provided by the following: more than 3000 individuals from a variety of sectors have been trained as assessors; in excess of 1000 moderators have also been trained, as well as some 500 facilitators, 50 assessment designers, some 200 evidence facilitators, and 350 coaches (one-to-one trainers). We also have accreditation to present ABET training programs (Literacy and Numeracy), Skills Development Facilitators (SDF) and Early Childhood Development Level 4 & 5.

Audit Results

We were audited by the ETQA of the ETDP SETA and our accreditation has been extended to 2015.

Soft Skills Training

Soft Skills are personal attributes that enhance an individual's interactions, job performance and career prospects, it is the character traits and interpersonal skills that characterises a person's relationships with other people. In simple terms, Soft Skills have more to do with who we are than what we know. In the workplace, soft skills are considered a complement to hard skills, which refer to a person's knowledge and occupational skills.

The Soft Skills required for a builder, for example, would be business ethics, supply chain management, conflict management, customer service, team building, coaching and mentoring, and project and time management. Alternatively, the hard skills for a builder would include a vast comprehension of building techniques, materials, regulations and structural integrity.

Please contact us for more information on any of our Soft Skills training courses

We have scheduled courses open to the public and we do on-site training for groups of 8 or more.

Basic Bookkeeping Skills Workshop

Numbers! Numbers! Numbers! Wherever you go, you are bound to see them. On addresses, license plates, phones, prices, and of course, money! Numbers connect us all to each other in many more ways than we might imagine. Essentially, our world revolves around numbers.

Some of us enjoy dealing with numbers while others may have a fear of them, or even a phobia. For those of you who have already recognised and appreciate the impact that numbers actually have on just about everything, you deserve a cookie. Welcome to Basic Bookkeeping!

Workshop Objectives:

- Understand basic accounting terminology.
- Identify the differences between the cash and accrual accounting methods.
- Keep track of your business by becoming familiar with accounts payable and accounts receivable.
- Use a journal and general ledger to document business financials.
- Utilize the balance sheet.
- Identify different types of financial statements.
- Uncover the reasons for and actually create a budget.
- Be familiar with internal and external auditing.

Duration:

1 Day

Budgets and Financial Reports Workshop

Money matters can be intimidating for even the smartest people. However, having a solid understanding of basic financial terms and methods is crucial to your career. When terms like ROI, EBIT, GAAP, and extrapolation join the conversation, you'll want to know what people are talking about, and you'll want to be able to participate in the discussion.

The Budgets and Financial Reports workshop will give you a solid foundation in finance. We'll cover topics like commonly used terms, financial statements, budgets, forecasting, purchasing decisions, and financial legislation.

Workshop Objectives:

- Identify financial terminology
- Understand financial statements
- Identify how to analyse financial statements
- Understand budgets
- How to make budgeting easy
- Understand advanced forecasting techniques
- Understand how to manage the budget
- Identify how to make smart purchasing decisions
- Identify the legal aspects of finances

Duration:

1 Day

Business Acumen Workshop

Through our Business Acumen workshop your participants will improve their judgment and decisiveness skills. Business Acumen is all about seeing the big picture and recognizing that all decisions no matter how small can have an effect on the bottom line. Your participants will increase their financial literacy and improve their business sense.

Business Acumen will give your participants an advantage everyone wishes they had. The workshop will help your participants recognize learning events, manage risk better, and increase their critical thinking. Business Acumen has the ability to influence your whole organization, and provide that additional edge that will lead to success.

Workshop Objectives:

- Know how to see the big picture
- Develop a risk management strategy
- Know how to practice financial literacy
- Develop critical thinking
- Practice management acumen
- Find key financial levers

Duration:

1 Day

Measuring Results from Training Workshop

Although we all know that training can have many amazing benefits, sometimes it can be hard to prove those benefits and attach a dollar value to training. Some topics, like sales training or time management, might have direct, tangible benefits. Other topics, like communication or leadership, might have benefits that you can't put a dollar value on.

Our Measuring Results from Training course, your participants will learn about the different ways to evaluate training progress, and how to use those results to demonstrate the results that training brings. Once the training has been evaluated the next step is to modify and updated the curriculum to create a content that is better suited for the participants.

Workshop Objectives:

- Understand Kolb's learning styles and learning cycle
- Understand Kirkpatrick's levels of evaluation
- Be familiar with many types of evaluation tools, including goal setting, tests, reactionary sheets, interviews, observations, hip-pocket assessments, skill assessments, and learning journals
- Understand when to use each type of evaluation tool
- Be able to perform a needs assessment
- Know how to write learning objectives and link them to evaluation
- Be able to write an evaluation plan to evaluate learning at each stage of the training and far beyond
- Know how to identify the costs, benefits, and return on investment of training
- Be familiar with the parts of a business case

Duration:

1 Day
